- **Some people will never love you regardless of what you do.**

Some people will always love you regardless of what you do.

- **Life is a single player game.**

Your wins, your losses are all yours.

Only the player can relish the real pleasures and pains of the game.

Others just happen to be there in your life -some push you forwards, few try to pull you down, few for entertainment and some other are there to enjoy your leftovers.

- **Most people don't know you exist and don't care about you.**

- **There are many hard-working, talented people who still fail.**

-
- **It doesn't matter how much you learn, you will never feel ready.**

- **Not everyone is capable of changing.**

People change only when they're left with no option.

- **The people you attract (or don't attract) reflect your vibes.**

- **Smart people figure out inner peace.**

- **Without emotional control, smart people are just fools.**

The most impressive people are those who don't care about reputation.

- **Most problems are avoidable with longer-term thinking.**

- **Some mistakes are irreversible**

You just got to learn to live with them.

- **Time to train and compound talent is a financial privilege.**

- **No one cares about your opinion until you show results.**

- **You don't know how important it is until you lose it.**

- **People don't fail due to lack of talent.**

It is due to lack of dire need.

- **We all think the past version of ourselves was a fool, but somehow, we think the current version is not.**

- **Results need dire-need , discipline and focus, not just intention**

-
- **People scared of the judgment of others don't achieve great success.**

- **No one has everything figured out.**

No one has no struggle or no doubt

No one is so smart that they have all the solutions to all the problems.

No one escapes pain and suffering.

- **The person you think you are.**

The person you want to be.

The person you actually are.

You find peace when they are the same.

- **Unlearning is even more important than learning.**

- **Success stories probably downplay the role of luck .**

Failure stories probably overplay the role of luck.

- **Being pro-active is a success hack in all aspects of life.**

Most people get average results because they happen to be reactive.

- **Life would teach you a lesson again and again until you don't get it.**

- **Success in life really appears to be 2 things:**

1. Point yourself in the right direction. (right , growing & sustainable domain)

2. Do the work even when you're not in the mood to.

But there're no guarantees.

- **Luck is a function of surface area.**

You increase your odds by exposing yourself to more opportunities , more people ,spreading your bets.

You need a lot of shots on goal. Not everything will work, but some of it will.

Keep shooting.

Reach is a serendipity engine.
